# The Gold That Glitters.

DO RICHES MAKE HAPPINESS, OR DOES HEALTH MAKE WEALTH?

The richest man cannot always be said to be the most successful, for true success is not possible without happiness. Many a wealthy man would give all he now possesses to have the health and happiness of a young athlete. Health is not hard to get and keep! Good food is used in caring for food, the needs of the system. Nature often needs assistance; you sometimes abuse nature by overeating your nerves, your brain, or your body, and you haven't time to relax, and take the rest that you need. You must have outside help. Pabst Malt Extract, The "Best" Tonic, will supply the extra fuel, food, and strength it is absolutely necessary—an unexcelled assistant to nature in giving health, vitality and strength. It will make you eat and sleep well, and cause you to feel like yourself again, or perhaps, better than you ever felt in your life. The "Best" Tonic was awarded the 100 points of perfection at the World's Fair, and was the only Malt Extract which received that honor. Your nearest druggists carry Pabst Malt Extract, The "Best" Tonic in stock.

—The freemen's tournament in Columbia was well attended by Winnsboro people on Tuesday and Wednesday. The cheap rates and the good opportunity of spending a day in the capital city were great inducements. The program arranged by the freemen for the three days of the tournament was an attractive one and the friends of the freemen were well entertained.

—On Saturday next a meeting of the committees, which were appointed to work up the Confederate reunion in some of the counties, is to be held in Chester. These committees have been at work in Chester, Lancaster, Fairfield, Union and York, and at this meeting to be held on Saturday all of the necessary arrangements for the reunion will be held. It is expected that this reunion will be one of the pleasantest ever held.

McMaster's family have not heard from him since he reached Manila but they received a letter from Honolulu when he was on his way to Manila. The Sixth Artillery, of which Lient. McMaster is a member, is one of the crack regiments in the service.

—Miss Laura Ruff, of Rock Hill, who recently graduated from the Emerson School of Oratory in Boston, has been engaged as instructor of the reading class at the State Summer School. No teacher was at first provided, but as there was such a demand for a class in reading Superintendent McMahon had to secure a teacher and was extremely fortunate in securing the services of one so perfectly competent as Miss Ruff.

—The Fairfield Oil and Fertilizer Company are receiving a quantity of wheat which has been shipped here from the West to be used in the flour mill. The work of putting in the machinery in the mill has not yet been completed, but the mill will probably commence work before long. This is an entirely new enterprise for this part of the world and when the work begins it will be well worth going to see. The machinery is in every way entirely up-to-date.

A diseased stomach surely undermines health. It dulls the brain, kills energy, destroys the nervous system, and predisposes to insanity and fatal diseases. All dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't help curing. McMaster Co.

—State Superintendent of Education McMahon has sent circulars to the county superintendents notifying them that summer schools are to be held for the colored teachers. These schools are to be held in various places, but the one which will give fuller instruction to the teachers is to be at Orangeburg. The very best teachers have been secured and the colored teachers who attend these schools will have the opportunity of deriving much benefit from them. These schools are to last four weeks.

—During the storm, which occurred last week, a negro house near Simpson's was struck by lightning. The lightning struck a corner of the house where a bed was standing and set the bed on fire. A little negro who was in bed at the time was painfully but not seriously burned. On the same afternoon a little negro on Mr. W. J. Crawford's place, near town, was struck by lightning. When the flash came, two little negroes were seated under a tree eating. The tree was struck and was splintered, and one of the children received a severe shock, but the other escaped altogether. After being worked with awhile the child was restored, very little the worse for the shock.

## THE UNIVERSITY OF NORTH CAROLINA.

The growth and expansion of this institution should be a matter of pride to every Carolinian. In efficiency, patronage and public favor it is now second to none in the South. Its requirements are exact, its standard rigid, its tone of life high and manly. Its academic roll is the highest in the South, and in all its history it has never been so close to the people, and so able to serve them. Ambitious and needy boys should remember its motto is equality, opportunity and self-help. Read ad. elsewhere.

## RAIN AND HAIL.

On Wednesday afternoon a splendid rain fell, refreshing everything. The rain came up suddenly from the east and several distinct storms occurred during the afternoon. At one time the wind was quite high and a shower of hail fell but the stones were not large enough nor did the fall last long enough to do any harm to the crops in this vicinity. Near town, however, in the direction of Simpson's the storm was very severe. Trees were unrooted and some buildings were unroofed. During the storm almost every telephone in town was burnt out. This was remedied very shortly, however.

## Would Not Suffer So Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. W. Gilchrist, Livernyman, Burgettstown, Washington Co., Pa. This remedy is for sale by McMaster Co.

## THE COUNCIL SHOULD ACT.

With the hot weather begin the complaints about the pig pens that are allowed in the heart of the town, and yet these nuisances are not prohibited. The owners of pigs have only to make the pens a certain size, and they may put them where they please without considering for a moment the health of the people in the vicinity. There is nothing that is more certain to cause sickness than pig pens, and yet how many there are around. Year in and year out people are annoyed in this way, and there is no knowing how much sickness is the result. If the council would only look deep into this matter they would have the gratitude of many of the citizens.

## Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities, get Dr. King's New Life Pills. They develop every power of brain and body. Only 25c. at McMaster Co.'s drug store.

**A Woman Only Knows**  
What suffering from falling of the womb, whites, painful or irregular menses, or any disease of the distinctly feminine organs is. A man may sympathize or pity but he can not know the agonies which go through the terrible suffering, so patiently borne, which only a woman can understand and sympathize with. This suffering really is needless.

**McELREE'S Wine of Cardui**  
will banish this medicine from the female diseases of the system and permanently. It does away with humiliating physical examinations. The treatment may be taken at home. There is not containing any poisons or drugs. The sufferer is cured and stays cured. Wine of Cardui is becoming the leading remedy for all troubles of this class. It costs but \$1 from any druggist.

## AT THE S. C. COLLEGE.

The following is taken from the State's account of the commencement exercises at the South Carolina College on Wednesday. Miss Davis is the first woman who has ever read a graduation essay from the rostrum of the college chapel. The State speaks as follows of Miss Davis' essay:

Here Dr. Woodward introduced Miss Annie F. Davis, who read a very charming essay on "Shakespeare's 'The Merchant of Venice'." She is the first woman that has ever read a graduation essay from the rostrum of the South Carolina college. She traced the evolution of the dramatic genius of Shakespeare, as shown in his works. She spoke of the great experience he had gained in the production of Macbeth. She referred briefly to the interpolated passages found in Macbeth which have been ascribed to Middleton. The key note that sounds through this play is the weird horror of a spectre-haunted soul, hurried to its doom by the dark stroke of the wonderful imagery of the play, the conflict between good and evil and that trust and honor are of vast importance than the gratification of selfish ambitions. She described very beautifully the character of Macbeth, and drew a striking contrast between him and Hamlet. Lady Macbeth also received a few touches from her pen, and in closing she mentioned that this character was one of the saddest in the whole world of literature. It is impossible in this space to give a condensed outline of the excellent and well read production. A perfect storm of applause was accorded her at the conclusion of her reading.

## A Card of Thanks.

I wish to say that I feel under lasting obligations for what Chamberlain's Colic, Cholera and Diarrhoea Remedy has done for me. I have used it in so many cases of colic, lung troubles and whooping cough, and it has always given me the most perfect satisfaction, we feel greatly indebted to the manufacturers of this remedy and wish them to please keep up the production.—Respectfully, Mrs. S. D. Dorr, Des Moines, Iowa. For sale by McMaster Co.

## DEATH OF MRS. M. E. BACOT.

The following notice of the death of Mrs. M. E. Bacot and the interesting sketch of her life appeared in the New York Times and was copied in the News and Courier. Many of our readers remember Mrs. Bacot well, as she spent several years of her life in Winnsboro. Mrs. Adam Stoll, of Greenville, and Miss Eunice Bacot, of this place, are granddaughters of Mrs. Bacot. Those who knew Mrs. Bacot during her stay in Winnsboro have the pleasant recollections of her, and the news of her death is received by them with sincere regret.

Kenesha, Wis., June 14.—The death of Mrs. M. E. Bacot, aged 80 years, and widow of Richard Wainwright Bacot, is announced. She was born in Charleston, S. C. In 1838 she married Mr. Bacot, and in 1874, her husband having died, came to Kenosha to be with her brother, the Rev. Lucien Lane.

Mrs. Bacot's father, William Lane, was a lawyer of Charleston. He married Miss Fraser, of Bordentown, N. J. The Misses Fraser kept a school in that city, and there Lucien Charles Bacot, who taught French, married one of the Misses Fraser. When the Bonapartes were restored Lucien Bacot, a son of Caroline, sister of the great emperor, returned to France with his American wife and lived in a chateau near Paris.

Mrs. Bacot visited them and spent one winter in Paris, her father-in-law being then in the city. She was a devoted mother and a devoted wife. She was a little girl and was held up in her nurse's arms to get a look at the famous man. William Macgregor Thackeray visited her father's house and she remembered him clearly. The Bacot family belonged to the Huguenots, and came from Tours, France, among the early refugees to this country. They settled in Charleston and for more than one hundred years the Bacot mansion was a landmark in the city.

## Remarks of Rescued.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her father, a druggist, suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found her self sound and well, now does her own housework, and is as well as the ever was. Free trial bottles of this Great Discovery at McMaster Co.'s drug store. Large bottles 50 cents and \$1.00.

## IN MEMORY OF RUTLAND.

Home of Gen. Wm. Owens' Family.  
Ah! Rutland, to me with a pang comes the thought,  
How many sad changes in thy midst have been wrought;  
How many have left thy broad spacious hall,  
And gone where some day we will all have a call.  
I draw back the curtain of many a year,  
And gaze on thy scenes full of beauty and cheer,  
I picture myself 'neath your roof with no wealth,  
A stranger, I searched in your climate for health.  
I picture how good were your inmates to me,  
Each word I hear, and kind actions I see;  
Ah! wonder ye then, that in trouble to-night,  
I hear of a death, and in sorrow I write.  
I picture thy inmates all stricken with grief,  
A mother and sister bereaved—no relief  
Can come unto them; for the heart now laid low,  
Was dearer to them than all earth here below.

What to them is the glitter of earth, with its gold,  
When now from among them has gone this good soul;  
The strength of the family and pride of the home,  
Has left and gone hither 'mongst us to roam.  
You trouble, but why grieve ye? when found troubles of earth  
Are left at the gate of our heavenly birth;  
Ah! inmates of Rutland, remember ere long  
You too will be mingling with the heavenly throng,  
Ah! think of the meeting and joy of surprise  
As you enter the gate, that will gleam in her eyes;  
Surely knowledge of this will assuage your great grief,  
Lay your burden on Jesus, he will give you relief.  
Winnsboro, S. C. M. A. B.

## HEADACHE

is only a symptom—not a disease. So are Backache, Nervousness, Dizziness and the Blues. They all come from an unhealthy state of the menstrual organs. If you suffer from any of these symptoms, if you feel tired and languid in the morning and wish you could lie in bed another hour or two—if there is a bad taste in the mouth, and no appetite—if there is pain in the side, back or abdomen—BRADFORD'S FEMALE REGULATOR will bring about a sure cure. The doctor may call your trouble some high-sounding Latin name, but never mind them; the trouble is in the menstrual organs, and Bradford's Female Regulator will restore you to health and regulate the menses like clockwork.
